

WORKSHOP

Taking Forward the EU Student eCard Initiative

StudIES+

Co-financed by the European Union
Connecting Europe Facility

Dr. Monika Plum
Francotyp-Postalia Holding AG (Project Coordinator)

BRUSSELS | MARCH 14TH 2018

StudIES+ as a distributed platform

- will **facilitate the mobility** of students in the European Union
- **build trust** for secure e-services among students
- will **incorporate digital services** for Higher Education Institutions (HEIs) students
- services will be accessible via
 - **eID** (including eIDAS eID) and
 - **derived eIDs** (Erasmus Student eCard) as well as provide
 - **eSignature/eSeal/time stamp services** that rely on DSS for eSignature generation and verification.
- **Digital Transaction Management (DTM) platform** will be connected to the StudIES+ platform in order to offer a platform for eSigned document exchange between students, HEI, HEI services organisations on the one hand and businesses on the other hand.
- Secure exchange of the documents will also be ensured by deploying **secure document exchange** (ePROSECAL) and **notarization platform/services** (eNOTAR)

Erasmus
Student
eCard

Issuing an Erasmus Student eCard (remote / local)

- will allow incoming exchange students to apply for an Erasmus Student eCard of the host HEI in their home country with their nationally issued ID
- Will include mobile app “ID Wallet” to manage derived eIDs for remote access
- Will include 4 physical self-service terminals (SIDboxes) at HEIs to access services (in home country and abroad)

Use Cases

eStudent Job

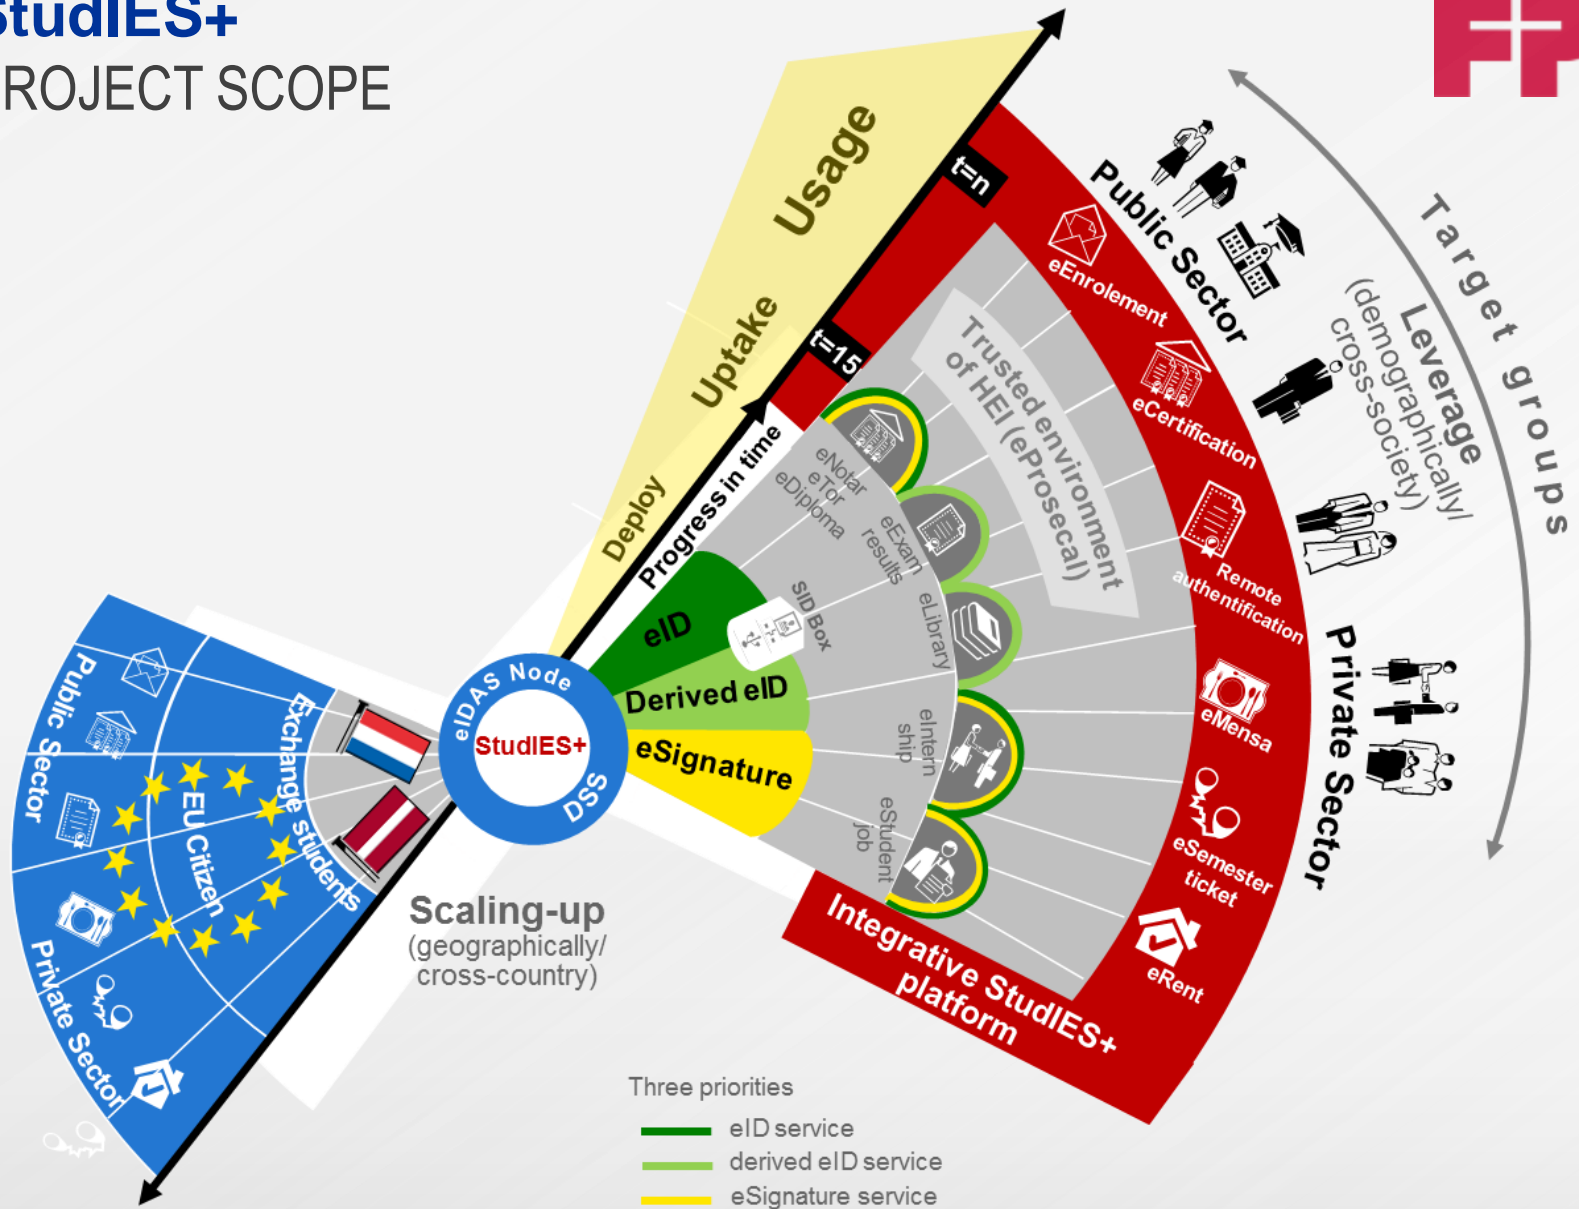

- will allow local and incoming exchange students and private companies to close contracts and exchange legally binding documents for student jobs.

3 additional application cases out of

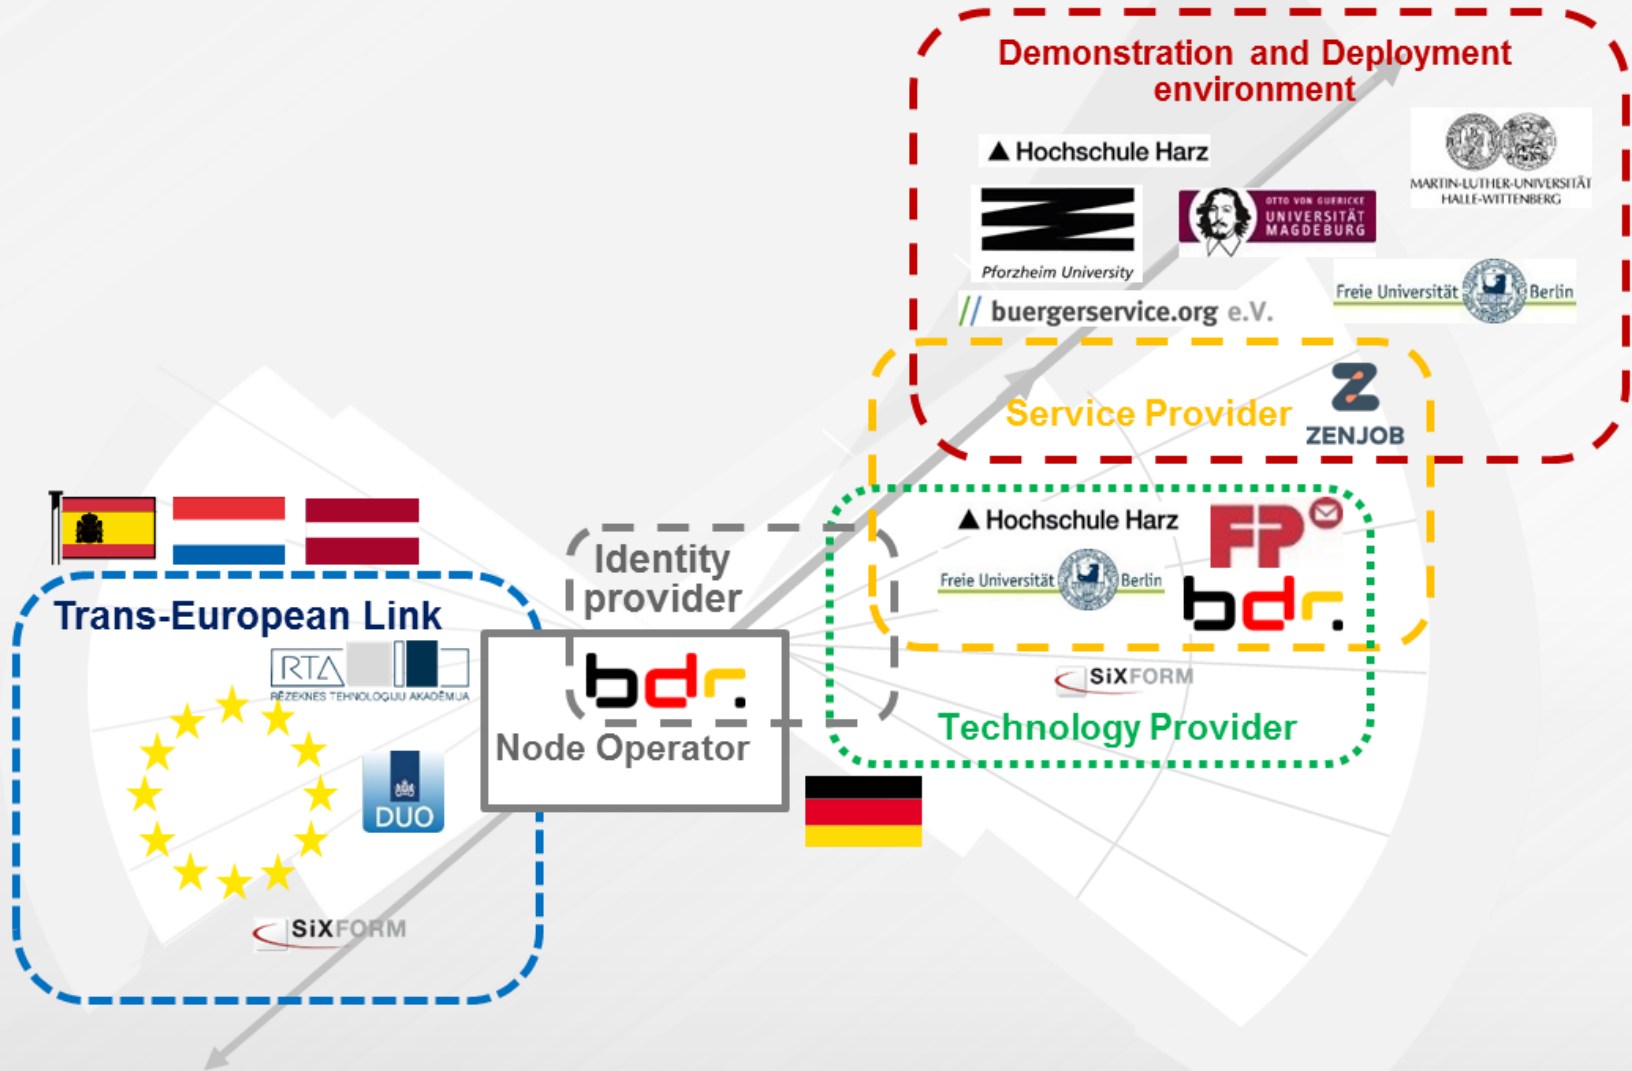

- ePracticum/eInternship; eNotar; eTestate/eTor; eDiploma; myErasmus-portal, further eIDAS extension of HS Harz applications (e.g. YourCredentials / MyCredentials Application), re-use of TREATS (EU CEF) components

StudIES+

PROJECT SCOPE

StudIES+ CONSORTIUM MEMBERS

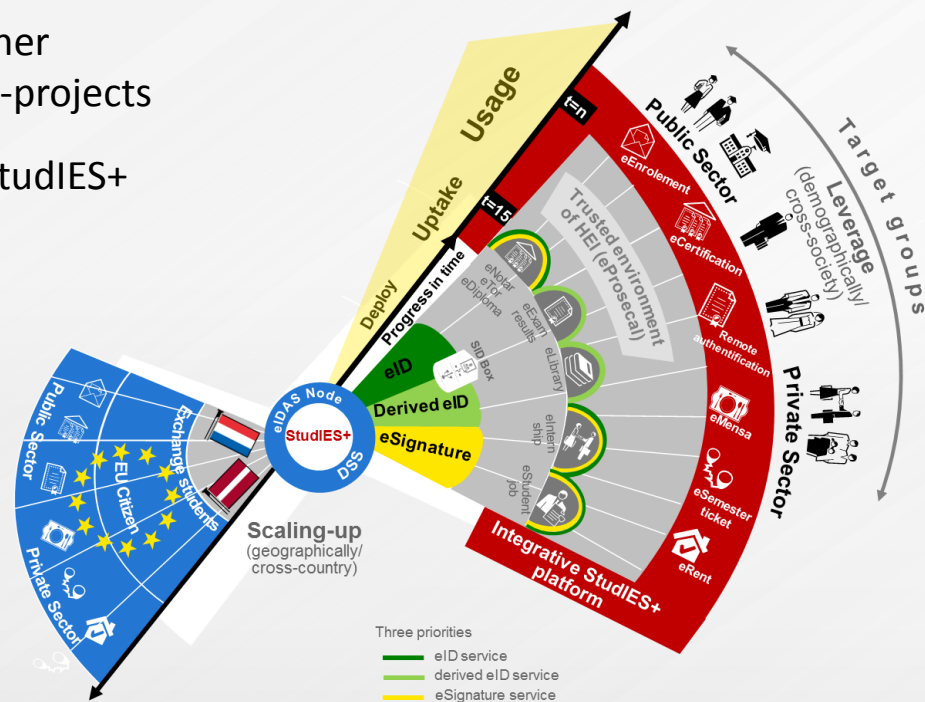

StudIES+

FURTHER DEPLOYMENT / PARTNERS

StudIES+ is open for further cross-border cooperation with partners

- Connect with further members states with eIDAS infrastructure
- Connect StudIES+ platform with further services/applications from other CEF-projects
- Further integration of services into StudIES+ platform in deployment phase

StudIES+
